

The BPM Northwest Cognos Enterprise Planning **Quick Start Implementation** is a proven methodology that allows for a rapid system deployment that can have you up and running in less than two months!

WHAT CAN YOU EXPECT?

Once you've made the right decision and committed to a BPM Consulting Engagement you will be on the way to the vision of CPM. Our top tier *Subject Matter Experts* (SMEs) will be dedicated to your vision from day one, and will continue with you until project completion and *Complete Client Satisfaction*. Your dedicated SME will continue to be available for system maintenance, future enhancements, and ongoing support.

Your Quick Start Implementation will begin with a planning conference call. The purpose of this call is; to ensure that all parties have the same vision; to discuss high level plans, and to plan project logistics. We then hold an onsite kickoff meeting for all interested parties. Next, we begin implementing our proven *Quick Start Methodology*. We will Review, Analyze, Design, Build, Document, Train, Deploy, and support.

Once we complete your Quick Start Implementation, we will provide ongoing support whenever needed in order to ensure your long term success and *Complete Client Satisfaction*.

WHY USE US?

Because we are the best at what we do. When you contract our expert team of Enterprise Planning Consultants you are getting the most experienced *Subject Matter Experts* available. Our Enterprise Planning Team Leader was part of the original design team that created this software in the 90's and has been implementing this outstanding solution ever since.

WHAT IS CPM/BPM?

Corporate Performance Management/BPM is a term coined by the Gartner Group. In their words: "CPM is an umbrella term that describes all the processes, methodologies, metrics and systems needed to measure and manage the growth and performance of any organization".

CPM is not a destination. It is a way of structuring your company that allows for immediate feedback and the ability to react or execute a new plan. The components of CPM consist of:

- ❖ Infrastructure
- ❖ Data Mart (ETL, Multiple DB's)
- ❖ Scorecarding & Dashboarding
- ❖ Reporting & Analysis
- ❖ Financial Consolidations (legal, Mgmt)
- ❖ Planning

BPM Northwest has proven methodologies that allow you to implement each, some, or all of these solutions within your company with success at each step.

WHO ARE WE?

BPM Northwest is comprised of experienced and educated financial, business and technical professionals. Our proven methodologies and outstanding consulting team allow us to understand your business issues first. Then apply the correct solutions. We pride ourselves on excellent work and a commitment that we will become your valued, trusted advisor.

BPM Northwest offers solutions in Corporate Performance Management (CPM) that allow a more efficient flow of information throughout your organization, allowing executives and business users the ability to make better decisions and plan more effectively.
